GIA SUMMARY

Carat Weight

0.53 carat

Clarity Grade

SII

Fluorescence

Strong Blue

Color Grade

Light Green Yello...

Measurements

4.98 x 4.49 x 2.93 mm

GIA No.

1182034255

Shape & Cutting

Radiant

Origin

Not Specified

THE CAUSE OF COLOR IN YOUR GREEN YELLOW DIAMOND

Yellow color in diamonds is attributed to the presence of nitrogen atoms that absorb blue light in the visible spectrum. Green diamonds derive their color from the absorption of red light waves. In your diamond, subterranean radiation exposure altered its atomic structure leading to the absorption of red light by its molecules and the emergence of its distinctive color.

A WORD ABOUT THE SATURATION OF YOUR DIAMOND

The grade "**Light**" represents **7%** of all Green Yellow color diamonds. Those graded as "Light" Green Yellow exhibit a smooth yet elegant hue

There are Six available saturation levels in Yellow color diamonds, Light being the Second most saturated.

Light greenish-yellow

Fancy Light greenish-yellow

Fancy greenish-yellow

Fancy Intense greenish-yellow

Fancy Vivid greenish-yellow

THE FUNDAMENTALS OF THIS DIAMOND'S SHAPE

The **Radiant** cut is a square or rectangular diamond with clipped corners, usually polished with a minimum of 59 facets. The Radiant is polished with a Starburst style pavilion, inspired by a round brilliant cut diamond, hence the name of this shape. **39%** from all Green Yellow fancy color diamonds are polished as Cushion / Radiant.

TRUE FACE-UP

The carat weight and physical size of a diamond are important factors in determining its value. However, when it comes to fancy colored diamonds, there is a tendency to prioritize other visual elements over their size, and as a result, the surface area of the face-up view is not always given high priority. Diamonds that appear slightly smaller are considered to be within the norm. However, diamonds that appear larger in relation to their weight will receive a premium.

* The data in this section pertains to the relationship between your diamond's face-up dimensions and the average face-up dimensions for relevant weight categories.

The Face-up of this 0.53 carat Radiant is equivalent to that of a **0.63 - 0.64** carat which is **~19.3% larger** than the average Radiant shape in this weight.

Large face-up commands a Premium

Average face-up for
this weight

4.98mm x 4.49mm

LEARN HOW UNIQUE IS THE WEIGHT OF A 0.53 CARAT IN GREEN YELLOW DIAMONDS

14.9% Of all Light Green Yellow diamonds
are smaller than yours

THE SI1 CLARITY IN THIS LIGHT GREEN YELLOW DIAMOND

The impact of the **SI1** clarity, in a Light Green Yellow, Radiant cut, is negligible compared to colorless diamonds especially when it is not visible to the naked eye. The SI1 clarity grade represents 12% of all Light Green Yellow diamonds in the 0.50 - 0.69 carat weight category.

F/IF Flawless / Internally flawless	VVS Very Very Slightly Included	VS Very Slightly Included	SI1 Slightly Included	SI2 Slightly Included	I Inclusion or Pique

THE STRONG BLUE FLUORESCENT IN THIS DIAMOND

Fluorescence refers to the emission of visible light when a diamond is exposed to UV light. The fluorescence in this diamond is caused by the presence of trace elements within the lattice of the diamond. When a diamond is exposed to UV light, these elements absorb the energy from the UV light. They become excited, and as a result, release energy in the form of a Blue glow. A **Strong Blue** Fluorescence can sometimes be seen under a direct sunlight and may temporarily weaken the saturation of this 0.53 carat diamond.

HOW RARE IS THIS 0.53 CARAT?

- Only **1 in ~ 11,000,000** diamonds will have similar characteristics
- A similar diamond enters the market once every **6 To 7 years**

RARITY GRADE
EXTREMELY RARE

The data on the Fancy Color Diamond Diary© may change from time to time and is not a guarantee or a reflection of the diamond's value. The origin of the diamond is provided solely according to the input of the person for whom the report was produced. The gemological description of the diamond is obtained from the GIA website. To maintain the accuracy and currency of the information, it is advised to periodically update the diary, especially prior to each use. For additional information about the data and other limitations, please contact us at customers@fcresearch.org.
