Shape & Cutting

Oval

Origin

Not Specified

THE CAUSE OF COLOR IN YOUR ORANGE YELLOW DIAMOND

The **Orange and Yellow** hues of this 1.02 carat diamond attest to the presence of nitrogen atoms that absorb blue light and create a yellow hue, combined with red luminescence. Diamonds with orange and yellow appearance have a distinctive atomic structure that results from immense pressure that deformed their crystal lattice and led to the absorption of a broad range of colors, including purple, blue and green.

A WORD ABOUT THE SATURATION OF YOUR DIAMOND

The grade **"Intense"** is the Second strongest saturation on the scale and represents **49%** of all Orange Yellow diamonds. Those graded as "Intense" Orange Yellow exhibit powerful saturation and convey a strong color sensation.

There are Three available saturation levels in Yellow color diamonds, Fancy Intense being the Second most saturated.

Fancy orange-yellow

Fancy Intense orange-yellow

Fancy Vivid orange-yellow

THE FUNDAMENTALS OF THIS DIAMOND'S SHAPE

The **Oval** brilliant is, in fact, an elongated version of the classic round brilliant cut diamond. The classic Oval brilliant cut is usually performed on colorless diamonds and is yielded from elongated rough diamonds. Only **12%** of all Orange Yellow fancy color diamonds are cut and polished as Ovals.

TRUE FACE-UP

The carat weight and physical size of a diamond are important factors in determining its value. However, when it comes to fancy colored diamonds, there is a tendency to prioritize other visual elements over their size, and as a result, the surface area of the face-up view is not always given high priority.

Diamonds that appear slightly smaller are considered to be within the norm. However, diamonds that appear larger in relation to their weight will receive a premium.

* The data in this section pertains to the relationship between your diamond's face-up dimensions and the average face-up dimensions for relevant weight categories.

The Face-up of this 1.02 carat Oval is equivalent to that of a **1.32 - 1.34 carat** which is **~30.3% larger** than the average Oval shape in this weight.

Large face-up commands a Premium

Average face-up for
this weight

LEARN HOW UNIQUE IS THE WEIGHT OF A 1.02 CARAT IN ORANGE YELLOW DIAMONDS

56.9% Of all Fancy Intense Orange Yellow diamonds are smaller than yours

THE SI2 CLARITY IN THIS FANCY INTENSE ORANGE YELLOW DIAMOND

The impact of the **SI2** clarity, in a Fancy Intense Orange Yellow, Oval cut, is negligible compared to colorless diamonds especially when it is not visible to the naked eye. The SI2 clarity grade represents 7% of all Fancy Intense Orange Yellow diamonds in the 1 - 1.49 carat weight category.

F/IF Flawless / Internally flawless	VVS Very Very Slightly Included	VS Very Slightly Included	SI1 Slightly Included	SI2 Slightly Included	I Inclusion or Pique

THE STRONG YELLOW FLUORESCENT IN THIS DIAMOND

Fluorescence refers to the emission of visible light when a diamond is exposed to UV light. The fluorescence of this diamond is caused by the presence of trace elements within the lattice of the diamond. When a diamond is exposed to UV light, these elements absorb energy from the UV light. They become excited, and as a result, release energy in the form of a yellow glow. **Yellow** fluorescence reinforces the color of this Orange Yellow diamond and will entail a price premium. The stronger the yellow fluorescence, the more attractive the diamond will be.

HOW RARE IS THIS 1.02 CARAT?

- Only **1 in ~ 190,000** diamonds will have similar characteristics
- A mere **10 to 12** similar diamonds enter the market yearly

RARITY GRADE
EXTRAORDINARY

The data on the Fancy Color Diamond Diary© may change from time to time and is not a guarantee or a reflection of the diamond's value. The origin of the diamond is provided solely according to the input of the person for whom the report was produced. The gemological description of the diamond is obtained from the GIA website. To maintain the accuracy and currency of the information, it is advised to periodically update the diary, especially prior to each use. For additional information about the data and other limitations, please contact us at customers@fcresearch.org.
