Shape & Cutting

Cushion

Origin

Not Specified

THE CAUSE OF COLOR IN YOUR GREEN BLUE DIAMOND

The exceptional blend of **Blue and Green** hues in your 0.38 carat, Fancy Deep Green Blue diamond is the outcome of natural radiation exposure over an extended period of time, under very high temperatures. Underground radiation surrounding the diamond, coupled with extreme heat conditions lasting millions of years, altered the diamond's atomic structure to the point where it absorbs light from the red to yellow spectrum, resulting in its Green and Blue color. When diamonds that have undergone such changes, the outcome is a rare combination of green and blue colors.

A WORD ABOUT THE SATURATION OF YOUR DIAMOND

The **"Deep"** grade exhibits an extremely saturated color with a darker tone. This grade represents only **5%** of all Green Blue diamonds. Fancy "Deep" Green Blue diamonds give a profound color sensation.

There are Five available saturation levels in Blue color diamonds, Fancy Deep being the Five most saturated. Fancy Deep is as saturated as Vivid; however, it presents a darker tone.

Fancy Light green-blue

Fancy green-blue

Fancy Intense green-blue

Fancy Vivid green-blue

Fancy Deep green-blue

THE FUNDAMENTALS OF THIS DIAMOND'S SHAPE

With a straight outline and rounded corners in the four curved areas of the shape, this diamond also has a modified pavilion to optimize color retention. Although the GIA does not categorize this shape as a Cushion, it is commonly referred to as one in the trade.

TRUE FACE-UP

The carat weight and physical size of a diamond are important factors in determining its value. However, when it comes to fancy colored diamonds, there is a tendency to prioritize other visual elements over their size, and as a result, the surface area of the face-up view is not always given high priority. Diamonds that appear slightly smaller are considered to be within the norm. However, diamonds that appear larger in relation to their weight will receive a premium.

* The data in this section pertains to the relationship between your diamond's face-up dimensions and the average face-up dimensions for relevant weight categories.

The Face-up of this 0.38 carat Cushion is equivalent to that of a **0.51 - 0.52** carat which is **~34.3% larger** than the average Cushion shape in this weight.

Large face-up commands a Premium

Average face-up for
this weight

Your diamond
4.39mm x 4.32mm

LEARN HOW UNIQUE IS THE WEIGHT OF A 0.38 CARAT IN GREEN BLUE DIAMONDS

0.0% Of all Fancy Deep Green Blue diamonds are smaller than yours

THE I2 CLARITY IN THIS FANCY DEEP GREEN BLUE DIAMOND

The **Included** clarity in your Fancy Deep Green Blue with an Cushion shape cut represents 4% of all Fancy Deep Green Blue diamonds in the 0.31 - 0.49 carat weight category.

F/IF Flawless / Internally flawless	VVS Very Very Slightly Included	VS Very Slightly Included	SI1 Slightly Included	SI2 Slightly Included	I Inclusion or Pique

THE FAINT BLUE FLUORESCENT IN THIS DIAMOND

Fluorescence refers to the emission of visible light when a diamond is exposed to UV light. The fluorescence in this diamond is caused by the presence of trace elements within the lattice of the diamond. When a diamond is exposed to UV light, these elements absorb the energy from the UV light. They become excited, and as a result, release energy in the form of a Blue glow. The **Faint Blue** fluorescence in this 0.38 carat has no impact on its quality. It is impossible to spot a glow of this **Faint Blue** Fluorescence in the diamond without a special UV light device.

HOW RARE IS THIS 0.38 CARAT?

- Only **1 in ~ 20,000,000** diamonds will have similar characteristics
- A similar diamond enters the market once every **8 To 12 years**

RARITY GRADE
EXTREMELY RARE

The data on the Fancy Color Diamond Diary© may change from time to time and is not a guarantee or a reflection of the diamond's value. The origin of the diamond is provided solely according to the input of the person for whom the report was produced. The gemological description of the diamond is obtained from the GIA website. To maintain the accuracy and currency of the information, it is advised to periodically update the diary, especially prior to each use. For additional information about the data and other limitations, please contact us at customers@fcresearch.org.
