Fancy Brown Pink

Measurements

5.08 x 4.82 x 3.25 mm

GIA No.

2165919299

Shape & Cutting

Radiant

Origin

Not Specified

THE CAUSE OF COLOR IN YOUR BROWN PINK DIAMOND

The combination of the pink and brown hue of your Fancy **Brown Pink** 0.70 carat diamond is caused by a fascinating geological phenomenon that occurs when certain diamonds undergo more forcible pressure and heat than others. Diamonds that are exposed to 900° Celsius and manage to withstand the immense pressure underground experience a unique change in their atomic alignment. That's when the magic happens! Scientists believe that when light enters your Fancy Brown Pink Radiant diamond and crosses its special atomic distortion, the light rays bend at an angle that absorbs a wide range of the color spectrum of light and creates the brown color, which will result in a combination of brown and pink color sensation.

A WORD ABOUT THE SATURATION OF YOUR DIAMOND

The grade '**Fancy**' represents a level with a significant presence of color and accounts for **49%** of all Brown Pink fancy Color diamonds.

There are Three available saturation levels in Pink color diamonds, Fancy being the Second most saturated.

Fancy Light brown-pink

Fancy brown-pink

Fancy Dark brown-pink

THE FUNDAMENTALS OF THIS DIAMOND'S SHAPE

The **Radiant** cut is a square or rectangular diamond with clipped corners, usually polished with a minimum of 59 facets. The term 'modified' refers to the fact that this stone is a modified version of the traditional rectangular Emerald-cut diamond. The Radiant is polished with a Starburst style pavilion as it creates a star shape when viewed through the table. This facet alignment is ideal for fancy color diamonds and gives the stone a special brilliance. Only **32%** from all Brown Pink fancy color diamonds are polished as Cushion / Radiant.

TRUE FACE-UP

The carat weight and physical size of a diamond are important factors in determining its value. However, when it comes to fancy colored diamonds, there is a tendency to prioritize other visual elements over their size, and as a result, the surface area of the face-up view is not always given high priority. Diamonds that appear slightly smaller are considered to be within the norm. However, diamonds that appear larger in relation to their weight will receive a premium.

* The data in this section pertains to the relationship between your diamond's face-up dimensions and the average face-up dimensions for relevant weight categories.

The Face-up of this 0.7 carat Radiant is equivalent to that of a **0.72 - 0.73** carat which is **~3.4% larger** than the average Radiant shape in this weight.

Large face-up commands a Premium

LEARN HOW UNIQUE IS THE WEIGHT OF A 0.70 CARAT IN BROWN PINK DIAMONDS

52.0% Of all Fancy Brown Pink diamonds are smaller than yours

THE I1 CLARITY IN THIS FANCY BROWN PINK DIAMOND

Most Brown Pink fancy color diamonds are formed under greater underground pressure relative to other diamonds. As such, many Brown Pink rough diamonds are heavily fractured and cracked and as a result, receive a low clarity grade. Pursuing a high clarity grade during the manufacturing process usually entails a significant weight loss. The **Included** clarity grade on your Fancy Brown Pink diamond represents 6% of all Fancy Brown Pink diamonds in the 0.70 - 0.99 carat weight category.

F/IF Flawless / Internally flawless	VVS Very Very Slightly Included	VS Very Slightly Included	SI1 Slightly Included	SI2 Slightly Included	I Inclusion or Pique
--	--	--	---------------------------------	---------------------------------	--------------------------------

HOW RARE IS THIS 0.70 CARAT?

- Only **1 in ~ 5,000,000** diamonds will have similar characteristics
- A similar diamond enters the market once every **2 To 3 years**

RARITY GRADE
EXTREMELY RARE

The data on the Fancy Color Diamond Diary© may change from time to time and is not a guarantee or a reflection of the diamond's value. The origin of the diamond is provided solely according to the input of the person for whom the report was produced. The gemological description of the diamond is obtained from the GIA website. To maintain the accuracy and currency of the information, it is advised to periodically update the diary, especially prior to each use. For additional information about the data and other limitations, please contact us at customers@fcresearch.org.
