Fancy Dark Gray G...

Measurements

5.18 x 3.67 x 2.20 mm

GIA No.

5222819037

Shape & Cutting

Pear

Origin

Not Specified

THE CAUSE OF COLOR IN YOUR GRAY GREENISH YELLOW DIAMOND

Gray Greenish Yellow diamonds exhibit an unbelievable behavior for a diamond, as can be understood from their nickname; dramatically changing their stable color when heated or placed in darkness. Much like the mythical moonflower, which blooms at night and returns to its normal state by dawn, this transformative quality derives its value not from traditional color grades or modifiers, but from its unique ability to transform. Collectors should know that their diamonds will exhibit a different color when placed undisturbed in a safe.

A WORD ABOUT THE SATURATION OF YOUR DIAMOND

The Fancy **"Dark"** grade represents an extremely saturated and mysterious color sensation. "Dark" Gray Greenish Yellow diamonds constitute just **29%** of all Gray Greenish Yellow fancy color diamonds.

There are Five available saturation levels in Yellow color diamonds, Fancy Dark being the Five most saturated.

undefined

THE FUNDAMENTALS OF THIS DIAMOND'S SHAPE

This **Pear** -shape's pavilion was modified from a brilliant facet alignment to optimize color retention, hence the name of this shape. Only **43%** from all Gray Greenish Yellow fancy color diamonds are polished as a Pear shape.

TRUE FACE-UP

The carat weight and physical size of a diamond are important factors in determining its value. However, when it comes to fancy colored diamonds, there is a tendency to prioritize other visual elements over their size, and as a result, the surface area of the face-up view is not always given high priority.

Diamonds that appear slightly smaller are considered to be within the norm. However, diamonds that appear larger in relation to their weight will receive a premium.

* The data in this section pertains to the relationship between your diamond's face-up dimensions and the average face-up dimensions for relevant weight categories.

The Diamond's face-up view appears true to its carat weight.
