## GIA SUMMARY

### Carat Weight

0.55 carat

### Clarity Grade

VVS1

### Fluorescence

None

### Color Grade

Very Light Pink

### Measurements

7.13 x 4.22 x 2.75 mm

### GIA No.

5234123974

### Shape & Cutting

Pear

### Origin

Not Specified

## THE CAUSE OF COLOR IN YOUR PINK DIAMOND

The pink hue of your Very Light **Pink** 0.55 carat diamond is caused by a fascinating geological phenomenon that occurs when certain diamonds undergo more forcible pressure and heat than others. Diamonds that are exposed to 900° Celsius and manage to withstand the immense pressure underground experience a unique change in their atomic alignment. That's when the magic happens! Scientists believe that when light enters your Very Light Pink Pear diamond and crosses its special atomic distortion, the light rays bend at an angle and absorb the green light, creating light waves ranging from red to violet and purple color.

## A WORD ABOUT THE SATURATION OF YOUR DIAMOND

The grade **"Very Light"** represents **10%** of all Pink diamonds and exhibits a soft, yet visible, color. In most cases, this saturation level receives the comment 'Not Applicable' in the distribution section, as areas of color gently blend with colorless areas in the face-up view.

There are Seven available saturation levels in Pink color diamonds, Very Light being the Second most saturated.

## THE FUNDAMENTALS OF THIS DIAMOND'S SHAPE

This **Pear** -shape's pavilion was modified from a brilliant facet alignment to optimize color retention, hence the name of this shape. Only **25%** from all Pink fancy color diamonds are polished as a Pear shape.

## TRUE FACE-UP

The carat weight and physical size of a diamond are important factors in determining its value. However, when it comes to fancy colored diamonds, there is a tendency to prioritize other visual elements over their size, and as a result, the surface area of the face-up view is not always given high priority.

Diamonds that appear slightly smaller are considered to be within the norm. However, diamonds that appear larger in relation to their weight will receive a premium.

\* The data in this section pertains to the relationship between your diamond's face-up dimensions and the average face-up dimensions for relevant weight categories.

The Face-up of this 0.55 carat Pear is equivalent to that of a **0.60 - 0.61** carat which is **~10.5% larger** than the average Pear shape in this weight.

**Large face-up commands a Premium**

Average face-up for  
this weight

Your diamond 7.13mm  
x 4.22mm

## LEARN HOW UNIQUE IS THE WEIGHT OF A 0.55 CARAT IN PINK DIAMONDS

**35.1%** Of all Very Light Pink diamonds are smaller than yours

## THE VVS1 CLARITY IN THIS VERY LIGHT PINK DIAMOND

Most Pink fancy color diamonds are formed under greater underground pressure relative to other diamonds. As such, many Pink rough diamonds are heavily fractured and cracked and as a result receive a low clarity grade. Pursuing a high clarity grade during the manufacturing process usually entails a significant weight loss. The **VVS** clarity grade on your Very Light Pink diamond is an extremely high clarity grade for a Pink Very Light color diamond and represents only 12% of all Very Light Pink diamonds in the 0.50 - 0.69 carat weight category.

|                                           |                                              |                                 |                          |                          |                         |

## HOW RARE IS THIS 0.55 CARAT?

- Only **1 in ~ 1,000,000** diamonds will have similar characteristics
- A mere **1 to 3** similar diamonds enter the market yearly

The data on the Fancy Color Diamond Diary© may change from time to time and is not a guarantee or a reflection of the diamond's value. The origin of the diamond is provided solely according to the input of the person for whom the report was produced. The gemological description of the diamond is obtained from the GIA website. To maintain the accuracy and currency of the information, it is advised to periodically update the diary, especially prior to each use.
