American Gemological Laboratories™
 America's first and most highly respected origin lab.

Founded in 1977,
 AGL is an internationally recognized gemstone
 testing facility, specializing in comprehensive
 colored stone analyses.

AGL has the distinction of being the
 first laboratory in the United States to issue
 Country-of-Origin reports. Our company and its
 principals have a long tradition of research into the
 detection of and reporting on gem identification-
 and-classification, gemstone treatments and
 provenance determinations.

Origin
 Provenance: Burma (Myanmar)

Comments: Based on available gemological information, it is the opinion of the
 Laboratory that the origin of this material would be classified as
 Burma (Myanmar).

Enhancement

Standard: No gemological evidence of heat Additional: None

Comments: Non-heated sapphires are scarce. Sapphires are commonly heated to modify their color and
 appearance.

Our staff is composed of experts in the field
 of gemstone testing and reporting. Our findings
 reflect the latest knowledge and analytical
 techniques to ensure the highest standards
 are applied on every stone we test.
