Identification

American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1977,

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the

first laboratory in the United States to issue

Country-of-Origin reports. Our company and its

principals have a long tradition of research into the

detection of and reporting on gem identification-

and-classification, gemstone treatments and

provenance determinations.

Our staff is composed of experts in the field

of gemstone testing and reporting. Our findings

reflect the latest knowledge and analytical

techniques to ensure the highest standards

are applied on every stone we test.

AGL's testing and reporting

methodology provide you with unsurpassed quality

and reliability. We are committed to providing

the highest level of service and reporting

that our clients and the industry have

come to expect from the AGL.

Origin

Provenance: Mozambique

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Mozambique.

Origin

Enhancement

Standard: No gemological evidence of heat Additional: None

Comments: Non-heated rubies are scarce. Rubies are commonly heated to modify their color and appearance.
