ABOUT GROSSULAR GARNET

Garnet is an isomorphous series with a constant silicate ion component and two variable elements, occurring in almost all shades of the rainbow. Garnets in every variety are birthstones for the month of January, and the gemstones representing the 2nd and 6th wedding anniversaries.

Menahem Sevdemish, D.Litt. FGA

IMPORTANT LIMITATIONS This report contains only the characteristics of the specific item/s described herein following its/their analysis and grading according to the GWLAB™ laboratory's highest standards. The report represents the best professional opinion of the item/s described, as recorded during testing and grading, limited to the methods and equipment available by the GWLAB™ laboratory at the time of the examination. In any event, GWLAB™ and/or its workers are not responsible for any loss, profit loss, damage or expense incurred by the customer or his customers hereafter due to any error found in this report or to any differences in test results which may transpire in case of repeated testing and/or use of other standards, norms, methods or criteria other than those chosen by GWLAB™.
