ABOUT TANZANITE

Tanzanite is a variety of zoisite, a group of crystallized calcium aluminum hydroxy sorosilicates, occurring in various shades of blue to violet. It is the birthstone of the month of December and the gemstone representing the 24th wedding anniversary.

Menahem Sevdemish, D.Litt. FGA

IMPORTANT LIMITATIONS This report contains only the characteristics of the specific items described herein following isother analysis and grading according to the GWLAB™ laboratory's highest standards. The report represents the best professional opinion of the items described, as recorded during testing and grading, limited to the methods and equipment available by the GWLAB™ laboratory at the time of the examination. In any event, GWLAB™ and its workers are not responsible for any loss, profit loss, damage or expense incurred by the customer or his customers hereafter due to any error found in this report or to any differences in test results which may transpire in case of repeated testing and/or use of other standards, norms, methods or criteria other than those chosen by GWLAB™. This report is not a price guarantee, nor a valuation nor an appraisal of any kind. For full information of important limitations and disclaimers, please visit www.gwlab.com
