ENHANCEMENTS

Indications of heating (TE)

COMMENTS

Gemological properties typical of natural Sapphire gems from Sri Lanka

GEM IDENTIFICATION & GRADING DIGITAL REPORT

COLOR ANALYSIS

Printed image/s quality may vary due to the lighting and environmental conditions, the camera used, the skills of the photographer and the printer's performance. Image/s is/are not to scale

23_00_6_3

The Gemewizard™ Color Reference image displayed above is found by GWLAB to most closely resemble the actual color of the gem. Please note that printed colors may look slightly different from the actual gem.

MEASUREMENTS

ABOUT SAPPHIRE

Sapphire is a variety of corundum, a group of crystallized aluminum oxides, occurring in all shades of the rainbow except red. It is the birthstone for the month of September and the gemstone representing the fifth and 45th wedding anniversary.

DIGITALLY SIGNED

IMPORTANT LIMITATIONS This digital report contains only the characteristics of the specific item/s described herein following its/their analysis and grading according to the GWLAB laboratory's highest standards. The digital report represents the best professional opinion of the item/s described, as recorded during testing and grading, limited to the methods and equipment available by the GWLAB laboratory at the time of the examination. In any event, GWLAB and/or its workers are not responsible for any loss, profit loss, damage or expense incurred by the customer or his customers hereafter due to any error found in this report or to any differences in test results which may transpire in case of repeated testing and/or use of other standards, norms, methods or criteria other than those chosen by GWLAB. This report is not a price guarantee, nor a valuation nor an appraisal of any kind.
