ABOUT AQUAMARINE

Aquamarine is a variety of beryl, a group of crystallized beryllium aluminum silicates, occurring in shades of light blue. It is the birthstone for the month of March and the gemstone for the sixteenth and the nineteenth wedding anniversary.

Menahem Sevdermish, D.Litt. FGA

IMPORTANT LIMITATIONS This report contains only the characteristics of the specific item/s described herein following its/their analysis and grading according to the GWLAB™ laboratory's highest standards. The report represents the best professional opinion of the item/s described, as recorded during testing and grading, limited to the methods and equipment available by the GWLAB™ laboratory at the time of the examination. In any event, GWLAB™ and/or its workers are not responsible for any loss, profit loss, damage or expense incurred by the customer or his customers hereafter due to any error found in this report or to any differences in test results which may transpire in case of repeated testing and/or use of other standards, norms, methods or criteria other than those chosen by GWLAB™.
